# NEWSLETTER

January 2011

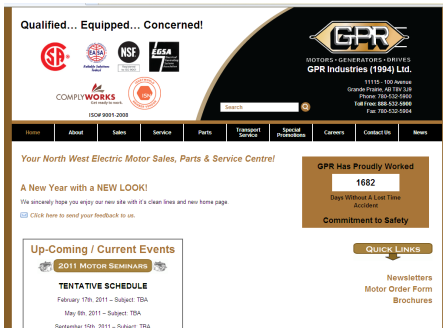

**QUALIFIED... EQUIPPED... CONCERNED!**

## A New Year and a NEW LOOK!

**We have done it again,  
Re-Vamped our website.**

We have restructured our website with clean lines and a new home page. This offers customer friendly, important information that is easy to access, in a newsletter layout. We will be posting special promotions, current events and article intros of information from within the site as well.

We would appreciate any feedback from you, by clicking on our link on the new home page.

## Evaluating Your Repair Facility For 2011

With going into a New Year, here is some information to consider when choosing your motor service center: **Reputation, Professionalism, Experience, Reliability, Responsiveness and Past Performance** are all key. But, EASA suggests most importantly, **visit** prospective service centers and **ask questions!**

### How Does Your Motor Shop Rank?

- |                                                                                                                                                                                                                                                                                                                                                                                                       |                                                                                                                                                                                                                                                                                                                                               |

- please call to setup an appointment**

## GPR's Commitment To Safety

We are also committed in keeping you up to date with our LTA's, as we have our counter on our new home page on our website, and when you come in our front door.

We at GPR Industries think highly of being safe and want to pass the message on to you!

Along with LTA's is our commitment to our CORE Safety Program and our ratings with ISNetwork and Complyworks makes Safety Priority #1!

## 2011 Motor Seminar

**We will be hosting another motor seminar this winter on February 17th, 2011.**

### Presentations on:

- ✓ Electric Motor Testing (Trouble Shooting)
- ✓ Bearing Maintenance (Including Lube Program)
- ✓ The Cost Of Poor Repair Practice
- ✓ Repair Vs Replace
